What Is INTA?
The International Trademark Association is a global association of brand owners and professionals dedicated to supporting trademarks and related intellectual property (IP) to foster consumer trust, economic growth, and innovation.

- **Membership:** INTA’s members are more than 7,200 organizations from 187 countries. INTA’s member organizations represent 32,000 trademark professionals and include brand owners from major corporations as well as small and medium-sized enterprises, law firms, and nonprofits. There are also government agency members as well as individual professor and student members. Except for a few limited categories, INTA membership is not by individual but by organization. Every employee at a member organization’s location can take advantage of member benefits and volunteer for a committee, project team, or other service opportunity.

- **Global presence:** INTA undertakes advocacy work throughout the world and offers educational programs and informational resources of global interest. The Association has headquarters in New York City; offices in Brussels, Santiago, Shanghai, Singapore, and Washington, D.C.; and representatives in Geneva and New Delhi. As a not-for-profit association, INTA’s role is to serve its members and society as a trusted and influential advocate for the economic and social value of brands.

- **Policy priorities:** INTA’s major policy priorities focus on areas of global concern, including:
  - The value of trademarks and brands—informing government officials and consumers about the value of trademarks and brands to local economies and society at large
  - Harmonization—advocating for harmonization of laws and regulations across jurisdictions, resulting in less uncertainty and confusion as well as greater cross-border protection for consumers
  - Brand restrictions—encouraging governments to take a balanced approach and consider the bigger public policy picture, and to ensure the integrity of their IP systems as a means to promote investment and economic growth
  - Counterfeiting—working in partnership with all stakeholders to advocate for stronger anticounterfeiting measures online and offline, to promote cooperation in enforcement efforts across agencies and borders, and to increase awareness of the harms of counterfeiting
  - Internet Governance and the Domain Name System—playing a prominent role in ensuring a secure, stable, and resilient Internet in order to protect consumers and trademark owners

2018–2021 Strategic Plan
INTA’s 2018–2021 Strategic Plan focuses on the following three strategic directions:

1. **Promote the value of trademarks and brands**
   - Encourage the protection of trademarks and related IP
   - Support the harmonization of laws and convergence of practices
   - Support trademark enforcement
   - Promote the business value of brands

2. **Reinforce consumer trust**
   - Reinforce trademarks as sources of information and brands as promises of delivery
   - Communicate the contribution of brands to economies and society
   - Promote brand equity

3. **Embrace innovation and change**
   - Evaluate changes as a result of technology, innovation, and evolving consumer needs and values
   - Educate members on the impact of innovation, technology, and change on brands
   - Provide innovative, valuable services to members

Volunteer Involvement: To implement the Strategic Plan, more than 3,000 talented and dedicated volunteers serve on INTA’s nearly 200 committees, subcommittees, and project teams. The Association’s committees form three major groups: Advocacy, Communications, and Resources.
INTA Studies

INTA's Research Advisory Council commissions and coordinates research projects and studies on behalf of the Association.

- INTA and the Inter-American Association of Intellectual Property (ASIPI) collaborated on two studies investigating the economic impact of trademark-intensive industries on gross domestic product (GDP), international trade, employment, and wages. The first study, *Trademarks in Latin America: A study of their economic impact in five countries in the region* (December 2016), determined the economic impact in five countries: Chile, Colombia, Mexico, Panama, and Peru. The second study, *Trademarks in Latin America: Economic Impact in 10 Latin America and the Caribbean Countries* (October 2019), updated the findings for the original study's five countries and included findings for five additional countries: Argentina, Brazil, Costa Rica, Dominican Republic, and Guatemala.

- INTA's *Gen Z Insights: Brands and Counterfeit Products* study (May 2019) explores the relationship between Gen Z and brands, and their attitudes and perceptions of counterfeit products; and unpacks the importance of different practical and ethical considerations influencing Gen Z's purchase of counterfeit products. The study covers 10 countries: Argentina, China, India, Indonesia, Italy, Japan, Mexico, Nigeria, Russia, and the United States.

- INTA published *The Economic Contribution of Trademark-Intensive Industries in Indonesia, Malaysia, the Philippines, Singapore, and Thailand* (August 2017), analyzing the contribution of trademark-intensive industries to five major economies in Southeast Asia, with a focus on GDP, share of exports, and employment.

- INTA's members-only New gTLD Cost Impact Survey Report (May 2017) determines the impact of new gTLDs on trademark enforcement.

- Commissioned by INTA and ICC-BASCAP, *The Economic Impacts of Counterfeiting and Piracy* (February 2017) examines the scope of counterfeiting and piracy in international trade as well as the wider social and economic impacts on displaced economic activity, investment, public fiscal losses, and criminal enforcement.

- In 2020, INTA is working on two studies:
  - **In-House Practitioners Benchmarking Study**: This benchmarking research will include a survey of INTA’s 4,800+ corporate representatives from 1,000+ Corporate Member organizations from 50+ countries to understand the changing roles and responsibilities of in-house trademark teams.
  - **Brand Restrictions Study**: This study will focus on the attitudes of millennials and Gen Zers toward brand restrictions legislation and how such legislation could affect their purchasing behavior. The study will look at 10 countries: Brazil, Colombia, Chile, India, Mexico, Singapore, South Korea, South Africa, Thailand, and the United Kingdom.

- New in 2020! INTA has introduced sponsorship opportunities for the above-mentioned research initiatives. For more information, contact Sheila Francis, INTA Director, Strategic Partnerships & Economic Research, at sfrancis@inta.org.

Policy Development and Advocacy

Amicus Briefs Filed in 2020:

- On April 22, 2020, INTA filed an amicus brief in *VIP Products, LLC v. Jack Daniel’s Property, Inc.* with the United States Court of Appeal for the Ninth Circuit. INTA argues that the court should grant Jack Daniel’s Property’s petition for rehearing or rehearing en banc as the panel’s decision in this case improperly extends *Rogers v. Grimaldi* to the use of trademarks on any commercial good arguably having some “expressive” quality.

- On February 20, 2020, INTA filed an amicus brief in the *USPTO v. Booking.com B.V.* case pending before the U.S. Supreme Court. INTA argues that the Court should consider survey evidence when deciding whether a mark is generic or descriptive and should not be limited to cases involving “coined” terms, and that the Court should furthermore affirm that there is no per se rule for the protectability of generic marks with the addition of a generic top-level domain (“.com”) for an online business.
• On January 16, 2020, INTA filed an amicus brief with the U.S. Court of Appeals for the Ninth Circuit in the matter of LTTB, LLC v. Redbubble, Inc. INTA argues that the court should reverse and remand the case to the district court to reconsider its decision in view of the district court’s incorrect holding regarding the legal standard for and misapplication of the doctrine of aesthetic functionality.

Education

INTA’s Annual Meeting is the world’s largest gathering of brand owners, trademark professionals, and other IP professionals. INTA’s 141st Annual Meeting, held May 18–22, 2019, in Boston, Massachusetts, USA, drew a record crowd of more than 11,000 registrants.

• 2020 Annual Meeting & Leadership Meeting: November 16–20, 2020
• 143nd Annual Meeting (2021): May 1–5, 2021

Visit INTA’s Calendar of Events.

2020 Academic Competitions:

• Annual Saul Lefkowitz Moot Court Competition: This competition is open to teams of students from accredited law schools throughout the United States. INTA announced the National Finals winners of the 2019-2020 competition in March 2020.
• Asia-Pacific Moot Court Competition: Introduced in 2018, this competition is open to all law students outside the United States. The second annual event was held in Singapore, March 1–2, 2019; 21 law schools from 7 countries participated. The 2019–2020 competition was held in March 2020 with a revised format for this year.
• Annual Ladas Memorial Award Competition: This award is presented in student and professional categories for a paper on trademark law or a matter that directly relates to or affects trademarks. The submission process opens each November, and INTA announces the award winners each spring.
Legal Resources

- **The Trademark Reporter: The Trademark Reporter** (TMR) has published its EU Annual Review, by Tom Scourfield, with Jordi Güell and Martin Viehues (and others), which is the March–April 2020 issue of the TMR. This concise and informative issue contains highlights of 2019 European trademark cases at both the European Union and national levels.

- **Searchable Guides:** The Guides provide time-saving, practical information on trademark and related areas of law, contributed by seasoned experts throughout the world: *Country Guides: Essential Information on Trademark Protection Worldwide; Enforcement: An International Litigation Guide; Trademark Cancellations: International Practice and Procedures; International Opposition Guide: Comparative Practice and Procedures; Practitioner’s Guide to the Madrid Agreement and Madrid Protocol; Geographical Indications, Certification Marks and Collective Marks; and Trade Dress: International Practice and Procedures.*

- **Quick-Start Trademark Chart:** Get “quick hit” answers to 18 frequently asked questions across more than 120 jurisdictions with the Quick-Start Trademark Chart. Each response is dynamically pulled from one of INTA’s searchable guides, and you can print out a mini-chart of the answers for any country or any question.

- **Fact Sheets:** More than 70 INTA fact sheets provide answers to basic questions about trademarks and related topics. INTA’s top fact sheets are: Protection of Olympic Trademarks, U.S. Trademark Registrations: Principal Register vs. Supplemental Register, Trademarks vs. Generic Terms, Loss of Trademark Rights, and Marking Requirements.

- **Practitioners’ Checklists:** Help ensure that critical considerations are not forgotten and that details are managed efficiently, with our series of Practitioners’ Checklists, including our top five checklists: Clearance Search, Assuming Responsibility for a Trademark Portfolio, Cease and Desist, Due Diligence, and Trademark Filings in Foreign Countries.

Unreal Campaign

The Unreal Campaign educates young consumers (ages 14–23) about the importance of trademarks and brands and the dangers of counterfeit products. The Campaign does this through student engagement presentations (both on-site and virtually) as well as online engagement on Instagram and Facebook. Since its inception in 2012, the Campaign—with the support of Unreal Campaign Committee members and other volunteers—has reached more than 45,000 students in 39 jurisdictions and 118 cities around the world. To date, in 2020, the Campaign has reached more than 2,000 students through 10 in-person events and 2 virtual presentations in 6 jurisdictions. There are multiple ways to support the Unreal Campaign, including volunteering to host student engagement presentations, donating products to demonstrate real vs. fake for social media campaigns, and becoming a sponsor.
