

# Certificate

Contribution to nature conservation projects

The International Trademark Association (INTA) made a financial contribution to support global efforts to achieve the temperature goals of the Paris Agreement.

In 2025, in advance of its 2026 Annual Meeting in London, INTA demonstrated their commitment by supporting the planting of a total of 7.000 mangrove seedlings as a contribution to the Mangrove Restoration Project in Tudor creek, Kenya.

Through this contribution, INTA supports ecosystem restoration in the region and the sustainable livelihoods of the local community. In addition, this contribution supports mitigating CO<sub>2</sub> emissions.

Location: Mombasa, Kenya

Partner: Green CEO & Amani Jipange Group

Contribution to nature conservation projects

The International Trademark Association (INTA) made a financial contribution to support global efforts to achieve the temperature goals of the Paris Agreement.

In 2025, in advance of its 2026 Annual Meeting in London, INTA demonstrated their commitment by supporting the planting of a total of 3.000 trees as a contribution to the Woodland Creation and Restoration in Wooler, Northumberland, England.

Through this contribution, INTA supports ecosystem restoration in the region. In addition, this contribution supports mitigating CO<sub>2</sub> emissions.

Location: England, United Kingdom
